

Jaswinder Benawra, Level 2 engineer at SIRE Technology*

SIRE strengthens technical team with latest appointment

SIRE Technology has appointed Jaswinder Benawra to the position of Level 2 + Support Engineer. Jaswinder's appointment brings the number of technical support personnel at the company up to seven and it is a direct response to the company's continued growth and ever increasing client numbers.

"Jaswinder brings extensive industry experience to his role along with recognised qualifications including Microsoft Certified Technology Specialist and a Graduate Diploma in the Management of Information Systems. He has only been with us a few weeks but is already part of the team and delivering excellent support to our clients," commented Russell Cook, Managing Director at SIRE Technology.

Prior to joining SIRE, Jaswinder spent 12 years with Virtual IT, a managed computer service provider based in London. "SIRE provides me with a great opportunity to move into the Virtualisation environment and widen my experience. It is also great to be based closer to home and not having to commute to London," commented Jaswinder. When not working he enjoys family life and is a member of Maidenhead Hockey club.

Background

With over twenty years' experience, SIRE is an established and award winning provider of Cloud technologies, systems and processes. These often innovative business continuity systems and processes make a real difference to the operations of their customer organisations. Using IBM's Spectrum Project (formerly TSM) and its own software, Reviiver, SIRE enables its customers to focus on their core activity whilst SIRE manages their

infrastructure. By using a combination of the latest Cloud computing techniques and virtualisation, SIRE provides organisations with a reliable, flexible and financially viable IT infrastructure coupled with a robust Business Continuity Plan, that is scalable and future proof.
