

## **Kommerling exhibiting its full range of automotive bonding solution at automechanika for the first time.**

- **6-8th June, NEC Birmingham**
- **Stand 6C81**

Kommerling will be exhibiting its full range of bonding agents, sealants and adhesives for the automotive and bodyshop market at this year's automechanika exhibition. The range includes products for all substrates and elastomer types with an emphasis on single product application wherever possible. Visitors to stand 6C81 will be able to talk to members of the company's R&D and sales team to learn more about the full range of products available.

Grenville Armiger, Technical Sales Manager, Kommerling explained more; "This is the first time we have exhibited at a UK trade show and it is a great opportunity for us to show our full capabilities to both the UK and European automotive aftermarket and supply chain sectors. New approaches and materials demand new solutions for bonding and sealing and Kommerling's investment in R&D and product development enables us to work with the industry and help them overcome the challenges."

One of its leading products is Cilbond 62w, comes from a range of agents that are used by companies across the globe to bond the braking friction material to the brake metal. Other well respected products are Cilbond 24, a one coat for Natural Rubber into dynamic automotive end use applications and Kommerling's Korapur and Korapop range of 1 part PU & MS sealants, that help speed up the process in many bodyshop applications. For further information about the products or to book an appointment at the exhibition please contact Grenville direct on [GArmiger@kommerlinguk.com](mailto:GArmiger@kommerlinguk.com)

### Background

Based in Preston, UK, CIL, now Kommerling UK is the UK's only developer and manufacturer of high performance rubber to metal, rubber to plastic, rubber to fabric and

rubber to glass bonding agents for high performance automotive and industrial applications, including anti-vibration, hoses, belting and friction products. The company sells its products in over 50 countries through a network of distributors.

The Kommerling CILBOND range consists of:

- CILBOND Primers - high performance rubber to metal bonding primers, developed to five components exceptional in-service environmental protection.
- CILBOND Cover Coats - versatile solvent and water-based bonding agents for rubber-to-metal, rubber-to-fabric and PU to metal components.
- CILBOND One-Coats - pioneers of one-coat bonding technology, Kommerling CIK has a complete range of one-component products for all types of rubber and PU.

Koemmerling Chemische Fabrik GmbH is a leading international manufacturer of high-quality adhesives and sealants. Its European headquarters and extensive research and development facilities are in Pirmasens, Germany and it has a network of subsidiaries, sales offices and sales partners, in more than 80 different countries. With over 110 years experience, the company has established itself as an innovative market leader in provision of Polysulfide, Polyurethane, Silicone and Polyisobutylene sealants for the automotive, insulating glass and photovoltaic industries. In April 2015, Royal Holdings, Inc. through its Kommerling UK Limited subsidiary, acquired CIL.

Koemmerling Chemische Fabrik has been awarded ISO 9001, ISO 14001 ISO 50001 and OHSAS 18001 certification.
