

Fensterbau Preview Release, 21-24 March 2018, Nuremberg

Kommerling to focus on window bonding at Fensterbau

- **Hall 7, stand 7-118**

Kommerling UK will be alongside its parent company in Hall 7, Stand 7-118 at this year's Fensterbau exhibition. The company will be focusing its stand on the productions and solutions it provides for the bonding of the IG-unit into the frame. This includes solutions for a range of materials including PVC, wood and aluminium frames. Alongside the structural and architectural benefits, this approach offers far greater protection against burglary and intruders. Products from both the Kodiglaze and Kodispace ranges will be on show.

Background

KÖMMERLING Chemische Fabrik GmbH, headquartered in Pirmasens Germany, is a leading international manufacturer of high-quality adhesives and sealants. Since its foundation in the year 1897, KÖMMERLING has time and again pioneered the development of new technologies for modern adhesives and sealants.

We are passionate about innovative solutions for improving energy efficiency. Together with our customers we analyse their processes to then optimise these with jointly elaborated solutions. We replace mechanical fasteners, make products lighter, more durable and less noisy. This has made KÖMMERLING a technology leader in many adhesive and sealant applications. With our excellent product quality and worldwide service, we have evolved into a widely recognised systems supplier for the Glass, Transport, Construction, Industrial Assembly and Renewable Energy industries.

KÖMMERLING offers the most complete product range for the glass industry – and hence solutions for nearly every application from a single source. Our adhesives and sealants fulfil the highest requirements of international certification standards. In addition, they are tested according to even more stringent internal criteria.
