Kommerling will be showcasing its range of proven products for the marine market at this year's METS trade show. Recognised as the world's largest trade exhibition of marine equipment, materials and systems this is the ideal opportunity for Kommerling to highlight its products and expertise to this valuable market.

Ian Little, business manager for Kommerling's engineering adhesives team, said; "There continues to be a lot of interest from the sector in our products, especially the Weldmount range. With the support of our UK distributors, Albert Jagger, we are working with some of the leading designer and builders of superyachts in the UK."

HB Fuller Kommerling's full range of marine solutions includes elastic and structural bonding products specifically designed to be resistant to humidity and weathering. In addition, they can be used as bedding compounds for construction, flooring and deck materials, fillers, parquet flooring and lamination. They provide high bond strengths, are over paintable after curing and produce low emissions.

Background

KÖMMERLING Chemische Fabrik GmbH, headquartered in Pirmasens Germany, is a leading international manufacturer of high-quality adhesives and sealants. Since its foundation in the year 1897, KÖMMERLING has time and again pioneered the development of innovative technologies for modern adhesives and sealants. Today KÖMMERLING is part of H.B. Fuller, one of the world's leading adhesives and sealants providers for electronics, hygiene, transportation, aerospace, energy, packaging, construction, woodworking, general industries and other consumer businesses. We are passionate about innovative solutions for improving energy efficiency. Together with our customers we analyse their processes to then optimise these with jointly elaborated solutions. We replace mechanical fasteners, make products lighter, more durable and less noisy. This has made KÖMMERLING a technology

leader in many adhesive and sealant applications. With our excellent product quality and worldwide service, we have evolved into a widely-recognised systems supplier for the Glass, Transport, Construction, Industrial Assembly and Renewable Energy industries.

Our adhesives and sealants fulfil the highest requirements of international certification standards. In addition, they are tested according to even more stringent internal criteria.
